**MATERIAL FACT**

**São Paulo, July 01, 2020. ATMA Participações S.A.** (“Company” or “ATMA”, ATMP3), in accordance with article 75 of the Novo Mercado Regulations (“Regulations” or “Novo Mercado”), publicly announces to its shareholders, investors and the general market, that have received, on this date, a positive response to its request for exceptional treatment on the percentage of outstanding shares of the Company, based on article 11, II of the Regulation, which establishes a deadline for the recomposition of the minimum percentage of outstanding shares (“free float”).

The B3 Collegiate Board decided to grant the request, based on the application by analogy of article 11, II of the Regulation so that the Company **can maintain the free float below the minimum percentage defined by article 10 of the Regulations, at a level of not less than 17% of the total capital up to a maximum of August 10, 2021**, a date corresponding to the 18-month term requested by the Company for the restoration of the free float. **In the event that the free float reaches a higher level than the current one at any time during the aforementioned period, the reduction will not be allowed until it is fully recomposed.**

The Company remains at the disposal of its shareholders, for additional clarification, through its investor relations department.
